- Developed and maintained the company website, creating Figma designs for 3+ websites.
- Led a team of 4, ensuring code quality, conducting reviews, and optimizing performance.
- Collaborated with cross-functional teams to design and implement new features.
- Tech Stack- Nodejs,NextJs, React.js, Tailwind-Css, MongoDB & Figma

## PROJECTS

### Garmin Bahrain ([link](#))

Feb 2025

*Contributing to Garmin's global team of 20,000+ associates across 35 countries.*

- Built high-performance, interactive UIs with Next.js and Framer Motion.
- Collaborated on backend with Node.js and PostgreSQL.
- Tech Stack – Next.js, Framer Motion, Node.js, PostgreSQL

### U-scholar ([link](#))

Oct 2024

*Let's turn your study abroad dreams into reality.*

- Contributed to a global platform empowering students across 35+ countries to pursue international education.
- Designed and implemented Role-based dashboards for students, counselors, and admins—enabling efficient management of applications, documents, and communications.
- Engineered high-performance, interactive UIs using Next.js and Framer Motion for an engaging user experience.
- Built scalable backend services with Node.js and PostgreSQL, ensuring seamless performance and data integrity.
- Tech Stack – Next.js, Framer Motion, Node.js, PostgreSQL

### Gokul oottupura ([link](#))

Aug 2024

*Let's bring tradition to the digital table.*

- Collaborated with Gokul Oottupura, a renowned restaurant chain with 4+ branches across Kochi, Kerala, to

digitalize their Thiruvonam Sadhya experience.

- Designed and developed a high-traffic online booking platform that handled 2000+ orders, generating over ₹10 Lakhs in revenue within a single week.
- Built an integrated solution for both online and offline reservations, streamlining operations during peak festive demand.
- Crafted engaging user experiences with Next.js and Framer Motion, optimized for mobile and desktop users alike.
- Engineered a robust backend system using Node.js and PostgreSQL, ensuring real-time performance, order accuracy, and data reliability.
- Tech Stack – Next.js, Framer Motion, Node.js, PostgreSQL

### **AIHub ([link](#))**

**Jan 2024**

*Whether you need a table or a slot, we've got you covered!*

- Led a team of 4 individuals to develop the app.
- Integrated individual stores login with separate dashboard designs and individual booking
- Integrated multilingual support to cater to Dubai's diverse population.
- Tech Stack- ReactJs, Next js,Tailwindcss,node js,mui,react-query

### **Bigsurmoon ([link](#))**

**July 2023**

*Visualisation solutions for businesses that make data come alive.*

- Led a team of 3 individuals in executing projects and achieving creative milestones
- Utilizes augmented reality and 360 visualization techniques to enhance customer engagement and product exploration.
- Employs a skilled team of 3D artists and designers dedicated to transforming products into interactive, realistic 3D models
- Received recognition from mentors for successfully building a robust MVP within a 36-hour timeframe.
- Tech Stack- ReactJs, Twillio, Tailwindcss, Mongodb, Express,three-js,aws

## **TECHNICAL SKILLS**

**Languages:** JavaScript, TypeScript, Java, C

**Frameworks** – Next.js, React.js

**State Management** – Redux, Zustand, TanStack Query

**Styling** – Tailwind CSS, MUI (Material UI), Shadcn/UI

**Animations** – Framer Motion,Gsap

**Backend:** Node.js, [Express.js](#)

**Databases:** PostgreSQL, MongoDB, Redis

**DevOps:** Docker, AWS, Azure

**Tools:** Git, GitHub, Bitbucket, Turborepo, Jira
